### Ford Expedition Anti Theft Bypass

The passive anti-theft system (PATS) is installed on every Ford Expedition at the factory. While some erroneously call this system the factory alarm, it really is not an alarm system. The PATS system will arm itself if someone attempts to start the vehicle with anything other than the PATS key programmed to that specific vehicle.

### How to Reset the Theft Protection in a Ford Expedition ...

Insert the key into the door lock, on the driver's side door. Turn it on, but don't turn it back. Instead, hold the position for 40-60 seconds. This indicates to the system that you have the right key. Also, do the same by turning the key in the opposite direction and holding the position.

### How to Reset Anti Theft System Ford? - Useful Guide to ...

Ford PATS overview. Ford PATS Passive Antitheft System uses a key with a transponder in the head of the key. Each transponder is coded with a unique identifying code made from a possible 18 billion combinations. It's a passive system because it doesn't require any input from the driver. Ford has also referred to their PATS system as SecuriLock.
