Smith & Wesson used to make a round called .38 S&W. I'm thinking it may be still available but not commonly found. It was superseded by the .38 Special round & would not fit in my old .38 S&W Snubbie I bought back in the early 60's when I was in college. It might have been the same diameter but shorter than the .38 Special.

So I went back to the drawing board.....and the gun stores looking for a little "bigger" polymer framed 9mm. I handled them all, at least all that were available locally.
