"All knowledge is therefore either knowable empirically via the senses (ex. seeing a dog, watching someone act out of emotion or Duty, or smelling a warm pie), "pure" formal knowledge that requires rationalization (ex. the concept of spacetime, ideas for dog training, mathematics, a moral theory, or theory of how to bake the perfect pie), or a mix (ex. the idea of a dog existing in ...

The Basics of a Theory of Knowledge - Fact / Myth

Theory of knowledge, as we have seen, is a subject which is partly logical, partly psychological; the connection between these parts is not very close. The logical part may, perhaps, come to be mainly an organisation of what passes for knowledge according to differing grades of certainty: some portions of our beliefs involve more dubious assumptions than are involved in other parts.

Theory of Knowledge by Bertrand Russell

The System Of Profound Knowledge® (SoPK) is the culmination of W. Edwards Deming's work on management. The four areas of the system are: appreciation for a system, knowledge of variation, theory of knowledge and psychology. This post explores the theory of knowledge in the context of Dr. Deming's management philosophy.

Unified Theory of Knowledge

Epistemology is "theory of knowledge." Some regard knowledge as having two parts, our senses and how we process vision, hearing, tastes, and smells (body), and how perceptions are organized by formulating ideas or concepts (mind). The "theory of knowledge" has been based on the understanding that philosophers have had on the mind-body relationship.
