However, its psychotic twist lacks originality compared to films like Fight Club, which also attribute schizophrenia to the protagonist's cruel actions.

It's the movie version of the book Thr3e by Ted Dekker. The book is excellent and this film is an attempt to tell the complex story of the book simply. Being a movie, there is less time for the detail which made the book especially clever, but the film does tell the story reasonably well. If you have read the book you will want to see this movie.

The book I read/listend to last was "Digital Fortress" by Dan Brown, which totally sucked. That book was contrived and predictable whereas Dekker kept "Thr3e" fresh and suspensful and unpredictable.
